Comfortable and lightweight
Suitable for hearing aids

Robust
1 year warranty
Made in **France**
Easy to disinfect
Easy storage

Technical specifications

OPEN

Non-isolating headset allows the visitor to hear surrounding ambient noises while engaged with an app or audio guide. The sound is directed towards the ear and does not disrupt others nearby.

INTUITIVE

The positioning drawings inside the headset indicate how to place it. The headband is compatible with an accessory that can be adjusted to children's sizes. The headphones are also suitable for hearing aids.

HYGIENIC

Made of pure plastic with no foam, there is no contact with the ear (internal or external), so the headphones can be completely disinfected with ease.

COMFORTABLE

Lightweight and ergonomic design for a comfortable visit. The contact point for the headphone sits above the ear near the temples, eliminating pressure on the ear.

EASY STORAGE

The jack cable can be disconnected for easy storage. The curved connector avoids disconnection during the visit.

DURABLE

Made in France, all parts of this headset are repairable or replaceable. In case of breakage, the cable can be replaced in 10 seconds.

TECHNICAL OVERVIEW

Acoustic: 8 Ω (Ohms)

Sound pressure level (SPL @ 1kHz) : 72 dB

Response in frequencies : 400 – 20KHz

Sensitivity: 72 dB @ 1W / 1m
